THE SENATE.

SACRAMENTO, January 31.—The first business in the Senate this afternoon was the consideration of Rose's concurrent resolution relative to the withdrawal of government timber land from sale. Yell, of Mendocino, opposed it. He said it would operate to raise the price of timber land and give large timber owners a monopoly to the detriment of small settlers who desire to obtain 160 acres. Rose stated that the purpose of the measure was to protect the forestry of the State.

Haynes, of Humboldt, opposed it, saying the lumber trade is the chief industry of his constituency.

Jones, of Butte, said the effect of the resolution might be advantageous to Southern California, but would have the opposite effect on his portion of the State. The matter then went over as a special order until Wednesday.

The bill to encourage tree-planting in forest land was taken up, and the 22d of February fixed for Arbor day. The amount of the appropriation for awards to those who planted trees was fixed at \$2000, and the bill passed to the third reading.

Grassland introduced a constitutional amendment dividing the State into nine judicial districts and providing for a District Court of Appeals for each, consisting of one District Judge who shall preside and two Superior Judges to be designated by the Chief Justice of the Supreme Court. District Judges are to be elected in each district and are to hold office eight years.

ANAHEIM.

First Rail of the New Street-Car Line Laid.

(Special to the Herald.)

ANAHEIM, January 31.—A large force of men commenced work this morning grading and laying ties for the Anaheim street railroad. At 1 o'clock this afternoon the first rail was laid with appropriate ceremonies. Speeches were made by prominent citizens and a formal christening was given by pouring wine upon the first spike driven. A large gathering of citizens was present and the inauguration of the work was attended with great enthusiasm. The road is to be pushed to completion without delay, and will connect the present Southern Pacific depot with the new depot of the Atchafalaya, Topeka and Santa Fe road, which has been definitely located in this town.

An Escaped Lunatic Killed.

SAN LUIS OBISPO, January 31.—Dougherty, the escaped lunatic who has been wandering about the neighborhood heavily armed, and keeping people here in constant fear of their lives, appeared in the city yesterday. His sudden appearance created considerable excitement. Constable Jewett with a companion on tried to capture Dougherty and ordered him to surrender. Jewett's companion fired a shot over the lunatic's head; this seemed to excite Dougherty and he covered Jewett with his gun and prepared to fire, when the latter to save himself opened on Dougherty with a rifle, shooting him through the breast and thigh. Dougherty died in a few minutes. At the inquest the coroner's jury rendered a verdict fully exonerating the constable.

A Peculiar Death.

MEDFORD, January 31.—News has been received here from the Colton settlement this county, of the peculiar death of George Crittenden. He cut his throat with a pocket knife and died in a few minutes. The testimony taken before the coroner's jury shows that he was suffering with a swelling throat and while struggling for breath cut his throat to get relief. He committed the act in the presence of his wife. The jury's verdict states that he died from wounds inflicted by himself for relief of suffocation. He leaves a family of several children.

More Dynamite.

SAN FRANCISCO, January 31.—A horse car of the Sutter street railroad ran over a dynamite cartridge early last night on Market street near Davis. The explosion which followed broke the flange off of one of the wheels and lifted the car two feet. A few hours later a horse car on the same line, near the corner of Buchanan and Pacific streets, exploded a dynamite cartridge on the track. One of the wheels was damaged and the windows of the car shattered.

Three hundred of those on board were drowned. The remainder were saved and have arrived at Bahia. The "Kapunda" was an iron ship of 1084 tons. She was commanded by Captain Mason.

The Trunk Mystery Solved.

NEW YORK, January 31.—Edward Unger, the murderer of August Bohle, whose body was found in a trunk last week shipped to Baltimore, has made a full confession of the killing. Unger said that on the night of January 20th Bohle, who was a room mate of his, quarreled with him. Bohle struck him, and, believing his life in danger, Unger seized a poker and brained his assailant. The next night Unger cut the body up in sections and placed it in Bohle's trunk. The head he wrapped in a coat and threw into the river. The following morning he sent the trunk off to Baltimore.

Get Off Cheaply.

James Maloney, who several months ago robbed W. W. Weed, a short hand reporter, of a purse containing \$14, on First street, under the electric light mast, was allowed yesterday to plead guilty to petit larceny by Judge Cheney. There was no evidence sufficient to convict Maloney of robbery. Judge Cheney, taking into consideration the time already served by the prisoner, let him off with two days in the county jail. Late last night it was learned that Sheriff had become seriously ill from the effects of the accident.

EASTERN.

The Suicide of August Belmont's Son.

THE LONGSHOREMEN'S STRIKE.

Return of George H. Pendleton and His Views on the European Situation.

(Special to the Herald by the Associated Press.)

NEW YORK, January 31.—Word reached police headquarters at 3 o'clock this morning that Raymond Belmont, son of August Belmont, the well-known banker, had shot himself. Young Belmont lived with his father at No. 109 Fifth avenue, and was associated with the Belmont Banking house at 12 Pine street. In the evening Raymond went out to dinner. He returned shortly before 1 o'clock in the morning. With him was Leonard Behr, night watchman, with whom young Belmont was well acquainted and who frequently accompanied him home. They went to the basement, where there was a shooting gallery in which young Belmont, who was a very expert shot, frequently practiced. As they entered the room young Belmont picked up a double-action Smith & Wesson revolver of 32 calibre, and turning to Behr said: "Now I want you to hold up a gold collar button and I will shoot at it." Behr, who had frequently seen the young man shoot and had great confidence in him, at once agreed. Before taking up his position, however, young Belmont turned to him and said, "Oh! first close all the doors, so that the report may not be heard by other who is up stairs." Thereupon Behr walked over to the door and had just put his hand upon it when he heard the report of the pistol. Turning he saw young Belmont falling to the floor, the blood gushing from a wound in the side of his head. "My God, Raymond!" he cried, "what have you done? The young man raised his eyes, tried to speak but could not. Young Belmont died soon after. The bullet entered his brain. The coroner found that the bullet had passed clear through the skull, entering the right side of the head and coming out at the left. The watchman said the shooting was accidental, but the coroner said all indications pointed to suicide. Mrs. Belmont is in Washington. She was notified by telegraph this morning.

EVIDENTLY SUICIDE.

Coroner Edman said to-day that he had no doubt that the shooting was a suicide. He was due to an accidental discharge of the revolver. He made some inquiries and acquainted himself with facts sufficient, taken in consideration with other circumstances, to feel assured that the case was not one of suicide.

THE STRIKERS.

The Railroad Men Helping Out the Longshoremen.

NEW YORK, January 31.—The strike took a new phase to-day. It not only involves the additional longshoremen who went out this morning, but also the freight handlers of the railways, thus tightening the blockade on transportation and adding other thousands to the thousands already idle. Apparently by a preconcerted action, committees of freight handlers of a number of roads to-day presented formulated demands on the management, and it is understood that similar demands will be made on the managers of all roads leading into this city. The freight handlers of the Pennsylvania Railroad Company, employed on the company's North River piers to-day notified the managers that unless the rate of wages was increased from 17 to 20 cents per hour a general strike would follow all along the company's docks. The company was given until to-morrow noon to consider the demand. There are about 2000 men employed on the piers. Demands were also made by the freight handlers employed by the Central Railroad of New Jersey, and by the New York, Lake Erie and Western, for increased wages, and threatening to immediately quit work if their demands are not complied with. The concessions asked for were refused absolutely. At the office of the New Jersey Central it was ascertained that a committee of five waited upon the receivers this morning and presented the demand for increased wages for freight handlers and other employees, and insisting on an answer at or before 3 o'clock this afternoon. The receivers met them again at that hour in order to give them a written reply, in which they declined to comply with the demand. The committee took their departure and immediately afterward the freight handlers of the company on Per 14 went out on a strike. Among the demands of the committee was that the coal strike, as far as the Central Railroad of New Jersey is concerned, be settled in twenty-four hours after presenting this petition. In the course of its reply the company says: "We expect to give equal pay to clerks and others who are employed in similar positions; provided they are equally qualified to fill these positions, but we cannot recognize the propriety of paying all alike without regard to experience or efficiency. You state that you will not handle any freight that has been previously handled by non-union men. As the receivers of a company that is a common carrier, it is our duty to handle any freight presented to us, whether the same has been previously handled by non-union men or not. We cannot do our utmost to perform this duty. You demand that the coal strike be settled as far as our railroad is concerned, in twenty-four hours. This strike does not exist among our employees. It is for others, not for us to settle. Among the demands of the committee were more ocean steamers arrived to-day. The non-union men are working better and there is not so much freight piled up as on Saturday. In Brooklyn the strikers are quiet and orderly. Freight is being moved slowly by Italians and non-union handlers. There is much embarrassment to business.

Cold Weather.

ST. PAUL, January 31.—The past two days have been very cold, the mercury ranging between 20° and 35° below zero. This morning the weather moderated some and it commenced snowing. Trains on all roads are still delayed, the engineers not daring to run fast for fear of broken rails.

PENDLETON AT HOME.

What He Thinks of the European War Situation.

NEW YORK, January 30.—Hon. George H. Pendleton, United States Minister to Germany, who arrived here by the steamer Soala yesterday, was seen by a reporter to-day. Pendleton was asked as to his views of the possibility of war in Europe, and the general feeling in regard to it in the German capital. He replied that he had been on the ocean for nearly two weeks, hence was not informed as to the recent developments in the matter, and since he landed, Mr. Pendleton had not been able to catch up on the views. "The situation," he remarked, "when I left Berlin was very much strained. The powers of Europe from a general insecurity have been making immense preparations. There are tremendous military works and armaments on every side. I heard Von Moltke say that it was a condition of affairs that must have a solution. It may have changed since then. The Reichstag was dissolved on the question of the Military Bill on the Friday before I left Berlin. There was nothing new before I sailed." Mr. Pendleton said that he could not see that anyone in Germany desired war. In fact every effort was being made to avoid it. The old emperor was extremely anxious to have peace during the Kaiser's reign. He would not be ready for the Military Bill had been passed and the army organized. "In fact," added the ambassador, "it seems to me that Bismarck would accord heartily with any proposition for peace with honor. The Kaiser will in short time celebrate his 50th birthday. Bismarck is seventy-two, nearly as old. Both wish for peace. The middle classes are not anxious for war as the burden will fall heavily on them. There are, however, certain classes in the country whose condition would be advanced by war, but the great mass of the people desire peace. Their opinions count for nothing. Von Moltke, Bismarck and two or three other settle such matters. In France General Boulanger leads. One peculiar thing would strike the Americans in Europe; that is how little people influence the policy of the rulers. Mr. Pendleton then spoke at some length of the struggles in the Reichstag over the bill providing for an increase of 62,000 men for the army, for a period of seven years; of the advocacy by Bismarck; the refusal of the Reichstag to grant it for more than three years, and of the immediate dissolution of that body, practically as the story was told at the time from day to day in the Associated Press dispatches. Pendleton concluded with the remark that it was impossible to tell what the result might be. Everything depends on the decision of the Chancellor.

AN EXPLOSION.

Dastardly Attempt to Blow Up a Steamship.

NEW YORK, January 31.—At 5 o'clock this afternoon the steamship Guayandotte sailed from her pier in this city for Norfolk. When off Long Branch an explosion occurred in the after part of the saloon by which Captain Kelly and James Justine were slightly injured. The explosion is believed to have been some dynamite packed in a satchel that had been left in the closet room. The steamer at once put about and arrived at her dock at 10:30 to-night. The Guayandotte left with a mixed cargo, though only partly loaded. She carried five saloon and fifteen steerage passengers with a crew of forty-two persons. It was discovered that a hole about fifteen feet square had been caused by the explosion through the main and hurricane decks and much damage has been done in the saloon and outside on the deck on the main deck. The cabin was filled with splinters of timber. The vessel was not much injured, but the captain deemed her in no condition to continue the voyage and he put back. A stranger was seen hurrying from the closet where the explosion occurred a few moments before she sailed. He was about 35 years old 5 feet 9 inches high, and carried a satchel when first seen, but had none when he left the ship. No person has been permitted on board, and the pier is guarded by police.

THE GREAT PROPHET.

Brigham Young Resurrected by a Reporter's Imagination.

CHICAGO, January 31.—A Chicago Tribune special from Lincoln, Neb., says: Two miles south of this city stands a palatial residence owned by an English gentleman long since identified with the Mormon church. The residence has been untenanted for the last two years save by an old servant named White, who at one time was connected with the Jewels of London, a sect similar to the Mormons. He says: "Two months ago there arrived at the mansion an old gentleman bearing letters from my master in London, the purport of which was to obey his every wish and to keep his presence secret to all except those whom he saw fit to receive. Within a week persons began to arrive at the house. They were from Salt Lake and held long whispered consultations with my mysterious guest. Soon after the truth burst upon me that he was none other than Brigham Young, the great prophet of our church, who is to be apparently resurrected from the dead and preach to the people of Zion until the end of the world. As one having returned from the grave, to tell what lies behind. That his death and burial were only a deception well soon be seen by the whole world."

Stay of Execution.

ST. LOUIS, January 31.—The Supreme Court to-day granted a stay of execution until April 1st next to H. M. Brooks, alias Maxwell, and the Chinese Highlanders, pending appeals for new trials. The execution was to have taken place next Thursday.

Returned to Work.

JERSEY CITY, January 31.—About 1800 of Lorillard's strikers returned to work this morning on the firm's terms and the strike is ended. The Lorillards have all the hands now that they will employ, and every department is in operation.

Texas Prohibitionists.

AUSTIN, Texas, January 31.—The Lower House to-day a joint resolution proposing a prohibition amendment to the constitution was passed by a vote of 30 yeas to 21 nays.

WASHINGTON.

Struggling Over the Fisheries Question.

MANING'S ADVICE ASKED.

A Resolution Calling on the President to Suggest a Plan of Protecting Our Ports.

(Special to the Herald by the Associated Press.)

WASHINGTON, January 31.—The action taken by Messrs. Belmont, Clements and Rice, sub-committee of the Committee on Foreign Affairs on the fisheries question, is understood to be as follows. A majority of the sub-committee felt that whatever course was taken by the House should be taken in view of the gravity of the interests involved, not only with the knowledge, but with the full assent and active concurrence of the Administration. They, therefore, determined to forward copies of the Belmont joint resolution as passed by the Senate, the Gorman retaliatory bill as introduced into the Senate, and the Belmont retaliatory bill as reported by the Foreign Affairs committee, to both Secretary Bayard and Secretary Manning. Secretary Manning is specifically asked for an expression of his views and preference on the bills submitted, as bearing upon the interests committed by law to his supervision; and both the Secretary of the Treasury and the Secretary of State are asked to suggest any modification which may seem desirable to them in either measure. There is an unauthorized whisper to the effect that the reason for this course has been the fact that the recent action of the Senate on certain privileged questions has been resented by the Administration as having been taken in violation of a long established usage as to consultation with the State Department, and the House committee determined to stand right on the record in this regard.

CONGRESSIONAL.

THE SENATE.

WASHINGTON, D. C., January 31.—Hear presented resolutions of the Massachusetts Legislature concerning the treatment of American fishing vessels in Canadian waters, declaring itself in favor of retaliation to the extent of denying to Canadian vessels in American ports the right to purchase supplies, and the eventual exclusion of all Canadian products by land or sea, until the offensive legislation and action of the Canadian authorities are discontinued. Referred.

HOUSE.

Lawler, of Ill., offered the following preamble and resolutions: "Whereas, the bellicose tone of the Canadian press and the announcement that Great Britain will shortly dispatch a fleet of war ships to cruise in the vicinity of our northeastern coast line, indicate hostility towards the United States, growing out of our position on the fisheries question, and, "Whereas, Admiral Porter has directed attention to the fact that twenty-seven of our Atlantic, Gulf and Pacific harbors are absolutely defenseless, and eleven of the coast of New York, San Francisco, Boston, Lookport, Hampton Roads, New Orleans, Philadelphia, Baltimore, Portland (Me.) and Rhode Island ports, Farragut's Bay are in urgent need of immediate defense, and, "Whereas, it is alleged that Great Britain and Canada are in possession of charts and exemplifications of our harbor and coast defenses; "Therefore—Resolved: That the President be and is hereby requested as the commander in chief of our army and navy to inform the House of Representatives, at an early day, what steps, if any, are necessary in his judgment to provide for this emergency. The resolution was referred.

By Mr. Boutelle, of Maine, a resolution directing the committee on foreign affairs to report back forthwith the Senate Retaliatory bill.

By Mr. Lovering, of Massachusetts, resolutions of Massachusetts Legislature in favor of the Retaliatory bill.

A Denial from Hayard.

WASHINGTON, January 31.—Secretary Bayard was shown last night a published statement to the effect that he had sent a despatch to Minister Phelps informing him that the British schooners seized by the revenue steamer, caught in Alaskan waters for illegal fishing, were wrongfully seized, and held that they will be given up and that proper damages will be paid to the British Government. The Secretary said: "I have no knowledge of such despatch. I have written none of such a nature."

Washington Notes.

WASHINGTON, January 31.—The President to-day appointed Robinson M. Jones to be Postmaster at Chico, California.

The President to-day approved the not granting a pension to soldiers and sailors of the Mexican war.

A Lucky Alderman.

WILKESBARRE, Pa., January 31.—Alderman G. S. Groff, of this city, received intelligence this afternoon that his family has just become heirs to an estate in Holland, valued at \$76,000,000. In 1877, the great, great grandfather of the alderman was exiled from Holland after his estate was confiscated by the Government and he came to this country and his descendants are now scattered over the western states except a few who are in New York. The Holland government has just passed a bill restoring the estates with interest and improvement. The family estate is now said to be worth the above mentioned sum.

Fatal Railroad Accident.

ODDEN, January 31.—A fatal accident occurred at Almy, Wyoming Territory, last Saturday night, at a switch on the Union Pacific. A double-headed west-bound train was derailed by the bending of a frog. Engineer Mark Murphy was killed. Three cars were wrecked and the second engine was demolished. No passengers were injured.

Twenty-Four Persons Drowned.

ODESSA, January 31.—The British steamer Blair Athol has foundered in the Black sea. Twenty-four persons were drowned.

THE VISITING STATESMEN.

What the Committees Have Done Since Their Arrival.

The three committees from the Assembly, noticed in the HERALD of Sunday, arrived here on that day, and took a pleasant drive around the city. They are accompanied by several ladies as follows: Miss Mary Bird, Clerk of the Committee on Education; Mrs. G. W. Jackson, Miss Jackson, Mrs. and Miss Henry, Mesdames Matthews, Campbell, Brzee, Judson. Yesterday the party went out through the Santa Gabriel valley, having a pleasant time. Last evening they were invited to take a trip over the electric railway, a kind of transportation that they had never seen before. The party consisted of about twenty-five ladies and gentlemen, who were whirled over the line at the rate of fifteen miles an hour without any visible power. All the party expressed great delight at the trip over the only electric railway west of the Rocky mountains.

The committee seem to realize that Los Angeles is now the most progressive city in California with six steam railways, four street horse railways, two cable railways, and an electric railway, with the largest Postoffice business except that of San Francisco in the State, and the largest real estate transactions and a larger number of houses erected during the year than in the metropolis, is something of a city, and is the center of all the immigration from the eastern side of the continent. This visit of these representative gentlemen will give a widespread sentiment of the importance of the city of Los Angeles. A banquet was tendered the visiting members and ladies, at 9:30, at the St. Elmo Hotel. There were present about sixty people, of which twelve were of the gentle sex. Ex-Mayor Spence presided, and President Reed, of the Council, occupied the foot of the table. The supper was a very fine and elaborate affair. A number of toasts were made and responded to by Messrs. Carroll, of Sacramento, ex-Mayor Spence, Gen. J. R. Brierly, General Vandever, of Ventura, Dr. A. B. Butler, of Tulare; W. P. Matthews, of Tehama; ex-Senator R. D. Vall, of John, Illinois; of Alameda; J. C. Bruse, of Amador; Rev. J. Simms, of Nevada; Allen Henry, of Butte; Hon. H. T. Hazard, Col. Walter S. Moore, L. N. Reed, C. M. Webber, of San Joaquin; Prof. Ira More, L. W. Hellman and R. B. Campbell, of Siskiyou. The banquet was a very pleasant affair and the guests did not leave the table until after midnight.

Councilman Reed has been the moving spirit in this affair. It is a matter of great regret that pressure of advertising patronage forces the HERALD to curtail the mention of this entertainment.

The hospital will be visited by the proper committee to-day.

THE FISHERIES DISPUTE.

England Will Send Men-of-war to Help Canada.

TORONTO, January 31.—The Ottawa correspondent of the Mail says: "Yesterday the announcement was made that the Imperial government has consented to send men-of-war next season to assist in the protection of Canadian fisheries. To the people of the United States doubtless this will be anything but palatable information, but as a matter of fact it is simply following a procedure established before the Washington treaty came into operation. A prominent official on being interrogated as to the correctness of the report, said 'it is true that the Imperial authorities have consented to send over one or more vessels next spring to assist the marine police in the enforcement of our fishing rights.'"

Fearful of War.

BERLIN, January 31.—The committee of the National Liberal party have issued a manifesto to the electors. They say: "Never since the Franco-German war has the danger of a great conflict been so near. No statesman can form any certain conclusion as to the future, even for a few weeks. The peace of Europe rests at this moment solely upon the strength, readiness for action and moral trustworthiness of the German army. The National Liberals are confident that the voice of universal suffrage will pronounce a right decision. An unpropitious issue of the election will bring down upon the country war with all its terrors."

The Post (semi-official) in a leading article headed "On the Edge of the Knife," says: "The position of General Boulanger is now not only strengthened but is becoming unassailable."

Riot in Belfast.

BELFAST, January 31.—There was terrible rioting in Peters Hill, Carrick Hill and Shanks Hill districts of the city Saturday night. The trouble originated through soldiers belonging to the West Surrey regiment insulting a number of Catholic civilians. The latter retaliated by stoning the soldiers, many of whom were injured. Last night the rioting was renewed, and the police and mob exchanged shots. Nobody was killed, but many persons received gunshot wounds, and a large number of others were more or less bruised by being struck by stones.

An Imperial Council.

NEW YORK, January 31.—A Vienna Cablegram says: A grand Imperial Council was held on Sunday over which the Emperor presided. All of the Austrian and Hungarian ministers were present. It was decided that the delegations should be convoked in March to vote the extra military credits of \$15,000,000 and a special credit for the equipment of the Landwehr.

Woman's Suffrage Rejected in England.

LONDON, January 31.—Baron Denman, in the House of Commons, this afternoon moved the second reading of the woman's suffrage bill. On motion of Marquis Salisbury the motion was rejected without division.

SAN GORGONIO!
SOUTH CALIFORNIA'S
MOST BEAUTIFUL MOUNTAIN VALLEY!

**TOWN OF
BEAUMONT**
(BEAUTIFUL MOUNTAIN)
NEW COLONY IN SAN GORGONIO VALLEY

The Me Plus Ultra of Land Tracts for Agricultural and Horticultural Pursuits.

Natural Health Resort in This Grand Climate of Southern California.
70 THOUSAND FIVE HUNDRED FEET ABOVE THE SEAS

IS SITUATED ON THE SOUTHERN PACIFIC RAILROAD, 30 MILES EAST OF Los Angeles, and but 25 miles from Colton, the great junction point for railroad lines. The tract has been laid off with broad avenues and interesting streets, after the plan of Vineyard, N. J., the renowned colony of the Atlantic Coast. The major part of the tract is divided into one to eight acre lots, and water from mountain springs is sent to every subdivision. Eleven miles of iron pipe is already laid.

The atmosphere of this magnificent valley is of that nature and containing those qualities which are said to be the very essence of life. It is particularly beneficial to the delicate and to those troubled with bronchitis and consumption, and most delightful to the rest and pleasure seeker. A first-class hotel with all modern conveniences will soon be built. Brick is already on the ground. Further up within the mountains there is one running cedar. Permanent settlers and those whose pursuit is husbandry will find the soil is of the finest decomposed granite and volcanic soil. The material is nearer here than in the valleys below. A superior quality of grain is raised, as well as delicious fruits. The scenery is unsurpassed. Magnificent views of mountains, peaks and snowy peaks, cedars, cactuses and forest glades. Capitalists and those desirous to invest in Southern California real property before doing so should see this beautiful locality. Visitors welcomed and shown every attention. For further information and particulars call on or address

THE SOUTHERN CALIFORNIA INVESTMENT CO.,
114 W. First Street, Northern Block, Los Angeles.

IVANHOE

700 ACRES DIVIDED INTO ONLY 1400 LOTS!

Price of Lots, \$150 Each. First Payment, \$20
Cash; Succeeding Payments \$10 Monthly,
Without Interest.

The entire Tract is beautifully situated, with a charming view; pure air and water and perfect drainage. The Ostrich Farm Dummy Railroad runs through the tract, with a 5-cent fare guaranteed to and from the center of the city. This road will be completed to the tract July 1, 1887. Pure and abundant water piped through all the streets.

Size of lots, 50x150 feet up to 5 acres.

The Average Size of Lots, 1-2 Acre.

The uniform price of these lots is placed at \$150. First payment, \$20 cash, with succeeding payments of \$10 per month, without interest. When \$500 has been paid on each lot, the entire number of lots will be distributed among the purchasers, on the same plan as that in which the Childs Tract was distributed.

This is a splendid investment for a very small amount of money.

The tract is situated upon the hills, which are rapidly becoming the most desirable residence portion of the city. The soil is a warm, sandy loam, free from frost, lying in what is known as the warm belt. The elevation is such that the temperature is more even than in the city.

FREE CARRIAGE to the tract every day from the office of the agents.

Their formerly well sold \$1.25 men's goods we give you a very nice well sold hat at \$1.25 or \$1.25, that you may \$2.00 and even more for. As soon as we get into our new customers and have the store to display our goods and mark out our prices so that we can show the department people in the store. There is no doubt that if you give us a chance to sell your hat, we'll want you a dollar or more. We tried hats in our department. It proved to be a good one, and the kind of straw goods soon to be displayed will show the similar one which remains in making.

Gentlemen's' Furnishing Goods

The largest, best and cheapest department—another salesman added. But for the mode of exposure in this department it would do an immense business, as it is highly satisfactory. We have a large warm stock and we sell awfully cheap. Just now we are selling men's scarlet underwear at 51 cent you pay 1/30 for at the cheapest furnishing goods house in the town. We are selling men's leandered colored shirts at 50c, that will cost you 50c at the same place. We have a man in New York that we pay a large salary to, to pick up all the goods he can under price, and we sell them as we buy them. That is his sole occupation, buying goods, and unless goods are cheap he lets others buy them. We propose giving this department three times the present size in our new store. We are selling men's full finished suit cloaked here at 10/12, and extra heavy gray Merino under wear at 50c apiece—that are going hard here to break.
